Thank you for Renewing your Membership

Dear Mrs John

Thank you for renewing your membership with the Arboricultural Association. I'm pleased to welcome you back for another membership year!

The Association was founded to advance the cause of arboriculture for the benefit of both trees and people and our goals today remain the same. Your 2021 membership offers you the opportunity to get involved with our work and help influence the direction of arboriculture in the UK and overseas. It also provides you with the building blocks and resources to help you advance your career in arboriculture or simply increase your knowledge of this wide and varied discipline.

Over the past year we have worked hard to produce an array of webinars and online video resources for our members and the wider arboricultural community. We have also started releasing new e-learning courses on key subjects that will enable you to continue developing your arb knowledge despite the reduction in face to face courses caused by COVID-19. We have released several Podcasts and Panel Shows, all aimed at providing easy to access, useful content, that is available on demand. All of this work will continue through 2021 and beyond, so watch out for new webinars coming soon.

You can also look forward to a range of brand-new AA publications and books – from Technical Guides, to new Photographic fungi guides, all available to purchase from our bookstore.

Your membership card for the next year is attached. Please sign the reverse and keep it safe.

You can use your unique login and password to access all our online member discounts and resources, such as our webinar library, journals, contracting templates and other specialist information.

The Association is here to support you throughout your membership, so please don't hesitate to contact us if you need any advice or have any suggestions.

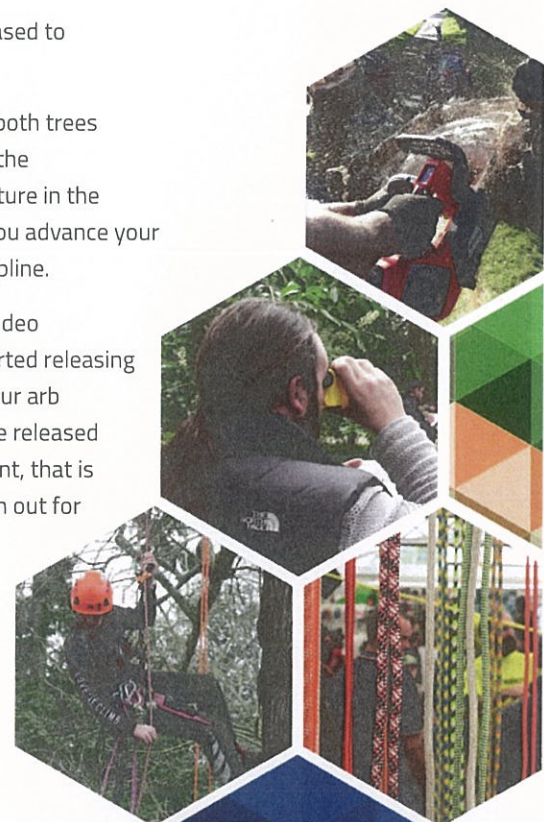

Yours sincerely

Jess Palfreyman
